Advantages

- No primer needed.
- Solvent free, hence negligible amount of VOCs are released into the air
- Lower operating costs with minimum time and fast production.
- Attractive durable and high quality finish.
- No paint runs required.
- Overspray powder is recovered and reused, so waste is minimal, can be disposed easily, economically and safely.
- A wide range of colour effects and textures.
- The Coating Powders have a very high mechanical strength.
- Pollution-Free & environment-friendly, protects the environment.
- No curing time required beyond the cool-down period.
- The Coating Powders have got high corrosion Resistance.

Curing Schedule: Object Temperature

- (1) EPOXY POLYESTER GLOSSY / SEMI GLOSSY 180°C 10 MINUTES
- (2) PURE EPOXY MATT FINISH 200°C 10 MINUTES
- (3) PURE POLYESTER 200°C 10 MINUTES
- (4) STORAGE STABILITY : 6 MONTHS AT NOT MORE THEN 25°C

Manufacture of Coating Powder
